Information Exchange and Awareness Raising Event on LANDFILL of Waste

Helsinki, Finland

15 September 2008 and 16 September 2008

*Experiences with implementation from the perspective of a municipal
waste management company, Pentti Rantala*

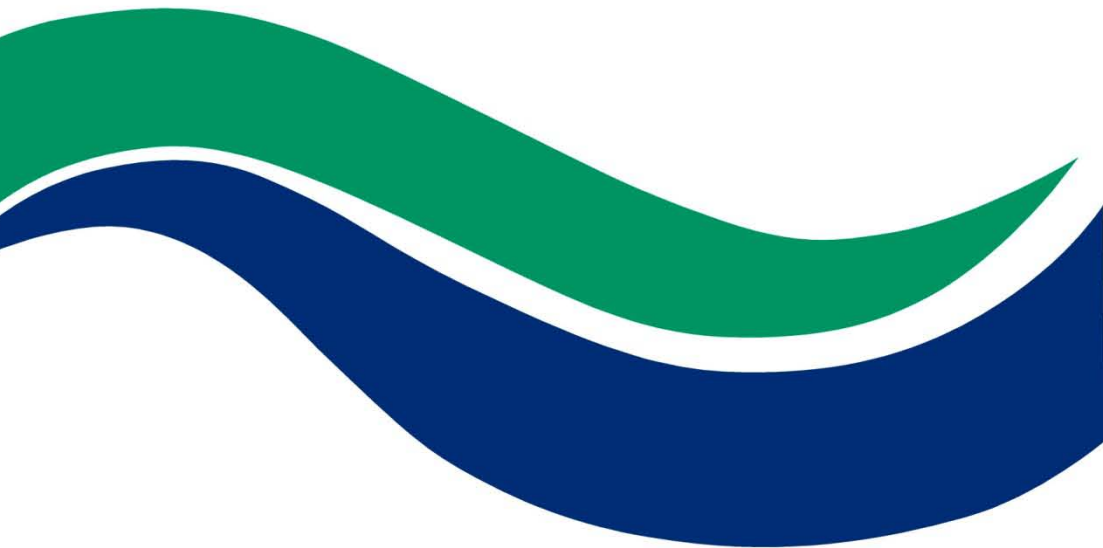

Project funded by DG Environment of the European Commission

Legislative framework

- Legal framework is extensive
- Large number of regulative documents
- Guidelines for aftercare and closure are to some extent contradicting and unclear
- Ad Hoc decisions needed at the site in cooperation with authorities in some details

Practise

- Certified ISO 14001 for operation
 - Detailed guidelines for waste acceptance
 - Detailed for processing of waste types
 - Procedure for recording problems
 - Testing
 - Record keeping
- Continuous training of staff
- Discussions with authorities
- Information exchange within JLY
(Finnish Solid Waste Association)
